One thing we've all learned through COVID19, is that no one should die alone, hospice beds need to be where people call, "home", and grieving should never be done in isolation. Home Hospice Association not only already knew all that, but they have been working to ensure all of those conditions are met.

That's why I'm participating in this year's Moonlit Memory Walk on October 1... to raise much-needed money to support the work that this Canadian registered charity does. I'm walking for (use what you wrote on your Tribute Page here).

Please help me reach my goal of \$_____ by making a donation through my Tribute Page (insert your link here).

Get to know HHA by visiting their website www.homehospiceassociation.com.
